While Secretary Taft is "holding down the lid," President Castro can have lots of fun by making the lid quite hot for President Roosevelt's corpulent substitute.

We know it is very immoral for a man to make a million dollars while we are trying to hatch up some scheme to do the same but we refuse to believe that John D. Rockefeller has gotten down on a level with the gas metre.

It is now proposed for the government to take charge of the telephone business of the country. If things keep on it won't be any long distance for us to go to get everything centralized.

Many of our exchanges refer to the Confederate flags recently returned by the government as the "captured flags." Some of them were taken in battle but many were given up by private individuals or seized after the war.

Representative Grosvenor (Rep), of Ohio, and Representative Champ Clark (Dem), of Missouri, are going to have a series of joint debates on the merits and virtues of their respective parties. They will charge 50 cents admission, and that serves to indicate to us the present price of hot air.

At Butler, Pa., the other day a man got a verdict of $624 against his mother-in-law for her board. A safe blower who is kind to his wife's mother is more entitled to respect than that man. This is no joke, and we would like to have a mother-in-law just to emphasize the fact.

A lot of papers are having a good deal of fun out of the fact that the son of the Ameer of Afghanistan went every night to a circus in British India and declared that it was the greatest thing on earth. We hope nobody seriously contemplates a successful contradiction of the Son of the Ameer.

Just about the time things were getting dull in the far eastern war, the Chinese junks are again looming up to tell us that they see things which they take for Japanese war ships lying in wait for Admiral Rojestvensky. It is hard to tell whether a junk is lieing in weight or telling the truth.

President Roosevelt got off this in his speech at San Antonio: "I have a little difficulty in getting some of my friends to accept my interpretation of it (the Monroe Doctrine), but they will in time, because that interpretation has come to stay." Dr. Roosevelt may not be open to a proposition from the gold brick artist but we just know he is going to believe that he jumped up a bear out in Colorado where the boys have had a passel tied out for a month.

SESSION ADJOURNED

Wilmington Presbytery Completed Work of Spring Term Here Yesterday.

MEETS NEXT AT CALYPSO

Christian Education and Home Missions Considered—Barium Springs Orphange—Interesting Meeting of Veterans.

The Spring term of Wilmington Presbytery, which has been in session with the First church, of this city, since Tuesday evening, completed its work and adjourned sine die at 1:45 o'clock yesterday afternoon. The various reports submitted during the session showed a very healthy condition of affairs and clerical and lay delegates, who were present in rather larger numbers than usual, return to their homes much encouraged for the future.

The morning session yesterday was devoted largely to consideration of "Christian Education." Reports from the academies under the care of Presbytery were very gratifying and showed a splendid work accomplished during the past fiscal year.

The gifts of Presbytery to all benevolent causes during the year showed a marked increase in all items save in the instance of one cause to which the contributions the year before were unusually heavy. Under the discussion of Home Missions some very interesting reports were made. Plans are in prospect for some new churches and the successful grouping of others now under care of Presbytery. All the churches within the bounds of Presbytery are now supplied with pastors and the congregations are alive to the responsibilities of organization.

Rev. R. M. Mann, of Clinton, with Rev. J. M. Wells, PhD., of Wilmington, as alternate, was chosen as a delegate to the next session of the General Assembly which meets in Fort Worth, Tex., on the third Thursday in May. As the lay delegate to the Assembly, Ruling Elder A. D. Hicks, of Faison, with Mr. P. Pearsall, of Wilmington, as alternate, was elected.

As stated yesterday, Presbytery will meet in Fall session October 11th, at Goshen Grove church, at Calypso, N. C.

Last night Presbytery heard with great interest an encouraging address from Rev. A. S. Caldwell, field agent for Barium Springs Orphanage, at Barium Springs, N. C. Rev. Mr. Caldwell spoke with great enthusiasm of the work at the orphanage and the outlook for increasing usefulness in the future. A generous friend of the cause has recently offered to build another $5,000 cottage to care for 50 children at the orphanage, provided Presbyterians will arrange for the support of the children and he is now engaged in visiting different parts of the State securing the pledges of persons to care for one or more of the children thus provided for in the proposed new building. Rev. Mr. Caldwell said that he had met with much encouragement in the effort and hoped very soon to report that the conditions as to the gift of the building have been complied with.

An interesting coincidence in connection with the attendance upon the session of Presbytery was remarked upon yesterday. Four enthusiastic Presbyterians on the floor of Presbytery yesterday morning, three of them delegates, were all Confederate veterans and commissioned officers in the same command during the war betwen the States and fought all the way through that conflict. They were Capt. J. C. McMillan, Lieut. J. O. Carr, of Rock Fish; Lieut. S. B. Newton, of Mt. Zion, and W. J. Boney, of Wallace. Those gentlemen were all officers of the 30th Regiment, North Carolina troops, C. S. A., and fought gallantly for their country. Their command was in the seven days fighting around Richmond and immediately thereafter went under command of Jackson, fighting through the war. They were of Cox's Brigade which made a charge even after the surrender of Lee. It was a singular coincidence that 40 years after those times which "tried men's souls," four officers of the same command, all Presbyterians and actively engaged, should meet again.

AN INTERESTING INJUNCTION.

Restraining Order Modified In Case of Garrett vs. Bear.

Mr. Isadore Bear and his counsel, J. O. Carr, Esq., returned yesterday morning from Louisburg, N. C., where they went before Judge C. M. Cooke and secured a modification of the recent injunction secured by Garrett & Co., of Weldon, against Messrs. Sol Bear & Co., of this city, a mention of which was made in these columns about two weeks ago upon service of the summons on Mr. Bear. It will be remembered that Garrett & Co., the big wine manufacturers of Weldon sought to have Messrs. Bear & Co., restrained from using a certain shaped bottle and label for the placing of their native wines on the market. The objectionable label was voluntarily abandoned by Mr. Bear but he insisted upon his right to use the shape of the bottle and went to Cincinnati, Ohio, recently and secured affidavits that the same shape bottles were sold by the gross everywhere and that Messrs. Bear & Company had as much right to use them as Garrett & Co., or any other manufacturer. Affidavits and photographs of the bottle were submitted and the injunction was modified to that extent.

At the hearing before Judge Cooke, Mr. Bear was represented by Mr. Carr and Garrett & Co., were represented by Walter Daniels and E. L. Travis, Esqs.

THE 19TH COMPANY GOING.

Artillery Corps From Fort Caswell to Take Part in Manoeuvres Around Washington in May.

Mention was recently made in these columns that one of the three companies of Coast Artillery at Fort Caswell would be sent to take part in the coming army manoeuvres on the Potomac river and Chesapeake Bay, beginning May 1st and continuing two months. The War Department has designated the Nineteenth Company, Capt. E. W. Timberlake, and it will be sent to Fort Hunt, on the Potomac. The company includes three commissioned officers and 100 men, who saw service in Cuba. Its designation by the Department is a distinguished honor and members of that command at the post are looking forward to the trip with great pleasure.

The great manoeuvres planned by the War Department are intended to furnish a practical example of the possibilities of the defnse of Washington from an attack by foreign battleships and cruisers. Many ships with large corps of marines will form the attacking force, and companies of coast artillery from every post along the Atlantic coast will be engaged in the defense.

While no detailed information regarding the manoeuvres has been made public it is understood that the coast artillery will be placed so as to defend the Potomac river and the entrance to Baltimore by Chesapeake bay and the Patapsco river. They will be scattered along the line of the coast and stationed in the various forts.

Below Washington on the Potomac are situated two forts, Fort Washington and Fort Hunt, on opposite sides of the river, and commanding the channel. These form the defense of the national capital, and will be the center of operations in the coming manoeuvers.

As a defense against a large body of marines being landed at Baltimore for an overland attack on the capital, other corps of coast artillery will be stationed at Fort McHenry, which commands the harbor of Baltimore on the Patapsco river. leading out of Chesapeake bay. Every method of attack which might be used by a foreign nation at war with the United States will be brought into play in these great maneouvers, which will be to the coast defense department what the infantry and cavalry manoeuvres at Manassas were to those branches of the nation's forces last Summer.

The artillery companies will go from all along the Atlantic coast and will be accompanied by the First Artillery Band, of Fort Moultrie, S. C., which recently spent a month at Caswell.

The detachments from the Southern forts will leave their respective posts about April 28 and will return about June 30. The various railroads have received letters from the headquarters of the Department of the Gulf, at Atlanta, asking for bids for the transportation of the troops, and a meeting of passenger agents was held this week in Atlanta at which all details of the movement were decided upon.

THE HAYMAKERS' CARNIVAL.

Fantastic Parade Arranged at Meeting Last Night—Attractions.

An enthusiastic meeting of the Parade Committee of the Haymakers was held last night in Red Men's Hall on South Front street. At the meeting all arrangements were perfected for the big fantastic parade of Haymakers which will be a feature of Thursday night of Carnival week, beginning next Monday. The parade will be headed by the Haymakers' band and in line will be more than a hundred members of the order, the W. L. I., Naval Reserves, Boys' Brigade, Fire Department, cordon of police and other organizations. The Haymakers will be clad in characteristic "Reuben" attire and will carry torches and banners of pleasing nature. The parade promises to be one of the leading features of the week. The procession will leave the hall at 7:30 o'clock and will move along the route previously published.

Preparations for the carnival are going on in great shape and a week chock full of fun is assured. The Newbern Journal speaks in the highest terms of the attractions of the Jones-Adams Company which will furnish the attractions here and the public may be sure of a moral, refined show. The Haymakers say they will stand for nothing unwholesome or unclean and the patronage of the ladies and children will be catered to.

Independent Ice Plant.

The Star learns that there is a movement on foot among the largest consumers in Wilmington to organize a stock company for the operation of a new ice factory to cater to the retail trade more exclusively. The movement is a protest against the recent advance in rates by the two companies already here. The proposed plant will be small and the company will have a capital stock of only $10,000, but the promoters of the enterprise say they will be well able to take care of the retail demand and that their plant can be put in operation within 30 days.

Easter Week Offerings.

With the exception of Easter Monday night when Black Patti and her troubadours will hold the boards, the Easter week offering at the Academy of Music will be winsome Mabel Paige and her original company, who will appear in a strong repertoire of popular plays at popular prices. The engagement with the Mabel Paige Company was secured by Messrs. Cowan Bros. yesterday upon the cancellation of the date with the Crescent Stock Co. The Paige Company goes from Wilmington to Charleston and then to Jacksonville, Fla., to play at one of the parks there.

NEGROES ARE HELD

Killing of Wiley Kelley, Colored, Investigated By Grand Jury Yesterday.

TWO SHOTS WERE FIRED

John Bishop and John Read, Each Charged With the Crime—Evidence at the Inquest—Jail Without Bail.

The coroner's jury summoned Wednesday night to investigate the circumstances of the death of Wiley Kelley, the young negro who died in the hospital the same evening of wounds received Saturday night, March 20th, met yesterday morning at the City Hall and after hearing all the evidence obtainable, rendered a double verdict, fixing the crime either on John Bishop or John Read, both of whom have been held by the police authorities since the day after the killing. It appears that both the negroes took a shot at Kelley on the night of the difficulty and it does not quite appear from which pistol the bullet took effect. That matter will be threshed out at the May 29th term of Superior Court for which both Bishop and Read are held without bail.

The jury which investigated the affair was composed of Messrs. George Harriss, foreman; W. H. Northrop, Jr., secretary; G. W. Bornemann, D. E. Piver, Wm. H. Howe and M. R. Brown. The verdict was as follows: "From the evidence we find that the said Wiley Kelley came to his death by a pistol wound inflicted by the hands of either John Bishop or John Read." The evidence in the case was as follows:

Policeman J. R. Hardee testified that on the night of the homicide he was at Fifth and Grace streets and heard a pistol shot in the direction of the "hobby horses." Officer Appleberry and himself went at once to Sixth and Red Cross and found a negro shot. Another negro, Tom Harris, said he saw Read dragging another man and later saw the flash of a pistol. He pointed out the man to witness and witness arrested him. Read admitted that he shot the man but said he could not be convicted on his own admission; said he hoped the s—b—would die as he had hit John Bishop in the face with a brick.

John Read testified John Bishop was engineer at the "hobby horses." Wiley Kelley came within the enclosure around the "horses" and began projecting with the whistle. Jno. Bishop had some words with him and later said Kelley had hit him with a brick. A little later Bishop asked witness to go and see if Wiley Kelley was shot; told witness to go to Mr. Schulken's store. Witness found Kelley at the corner and he said he was shot; did not say who shot him. Witness went back to the "hobby horses" and sat down. Bishop told witness he (Bishop) had shot at Kelley; told others standing around that he had shot him.

Tom Harris was on his way home night of shooting; passed merry-go-round and saw one man dragging another. John Read was brought before the jury and was recognized by witness as man he saw dragging the other; saw both the men separate and then meet again on corner, near bar-room. Read was behind Kelley; then witness saw flash of pistol; the man who was shot was out-running the man Read, who had just been identified; witness walked to corner with Frank Bass; saw the man and he said he was shot and that the ball hung heavy. Policemen came up and witness told them what he had seen. They arrested Read; heard Read say to policemen that he had a right to protect his business and heard him afterwards say that he had shot the man. John Bishop was brought in witness' presence and said he did not recognize him in the crowd that night.

Justice John J. Fowler testified that John Bishop came to his house night of the homicide and said he had some difficulty and wanted advice; said a man had given him considerable trouble at the "hobby horses" where he was employed as engineer, by blowing the whistle continually; Bishop said he remonstrated with him and that the man had hit him with a brick and was attempting to hit him again when he fired at him with a pistol, but didn't know whether he hit him or not as he ran. Witness examined John Bishop's head and found contusion caused by a blow from some hard instrument.

Policeman W. R. Appleberry testified along the lines testified by Policeman Hardee. The wounded man said in reply to a question that one of the "hobby horse" men had shot him. Harris spoke up and said he knew who shot him and pointed out Read, who was arrested.

The ante-mortem statement of the deceased as taken at the hospital the day after the shooting was introduced. Kelley gave his age as 28 and said he was a native of Elizabethown, N. C. On night of shooting he was drinking and at the "hobby horses." John Bishop drew a pistol on him and he struck Bishop with a brick. Deceased said he was jumping on and off the "hobby horses" and Bishop came to him once with a big stick and another time with a pistol.

Southport's Advantages.

Messrs. D. I. Watson, R. C. Hood and C. Ed. Taylor, a committee from the Southport Chamber of Commerce, has issued a very strong circular letter to the press of the State pointing out the manifold advantages of Southport as a coaling station and, therefore, the logical deep water terminus for the proposed Southbound railroad. The Star will have more to say of the communication and the strong arguments presented by the committee later.

THE SUPERIOR COURT.

Another Entire Day Consumed With Irving Land Suit.

Still another entire day in the Superior Court yesterday was engaged in the trial of the Irving land suit, which is now pretty well familiar to the public. The plaintiffs introduced no further testimony and the defendants then submitted a large number of deeds and other documentary testimony, the nature of which is of no interest to the public. The defendants also introduced as witnesses Capt. T .H .Johnson, Mr. J. Frank Gause and Capt. Owen Fennell to prove adverse possession of the lands in question for a period of more than 25 years. The evidence was completed at 5 o'clock in the afternoon and argument was begun to the jury, W. B. McKoy, Esq., for the plaintiffs, having spoken for more than an hour. The argument will be resumed to-day and will probably continue until well in the afternoon.

Cases set for yesterday and which go over until the next term, not having been reached on the day upon which they were set, are Louisa B. Smith vs. Susan E. Moore, Ex.; Margaret Magarrahan et al. vs. A .G. Ricaud, et al., and S. H. Fishblate vs. The Fidelity and Casualty Co., of New York. The noted case of J. W. Monk et al. vs. City of Wilmington is set first for trial to-day and the attorneys interested expect to reach the same late this afternoon at least, in which event it will not lose its place on the calendar for trial at this term. However, if the Irving land suit is not completed in time, it will have to go over until the next term.

Of the tales jurors summoned for yesterday the sheriff returned as found Louis M. Bunting, H. W. Bagg, James I. Metts and Ed. Boushee. However, their services were not required and they were discharged.

In the case of Thos. Williams vs. D. K. Futch an order was made, appointing Walter G. MacRae surveyor to survey the lands granted by estate to Franklin Sneed and to report the same to the court at the September term next.

RESERVE CORPS SHOOT.

Challenge Issued to W. L. I. Rifle Team in May 20th Contest.

Members of the W. L. I. Reserve Corps who formed the team which won the first rifle contest against the Naval Reserves for the prize cup offered to the winner of two out of three competitive shoots on May 20th, have challenged the rifle team which will represent the company and defend its title to the cup against the Naval Reserves on May 20th this year, to a competitive shoot. The W. L. I. team for this year has not yet been selected but the old rifle team members of which are now on the Reserve Corps, will meet them in either the event of their winning from or losing to the Reserves this year. The contest for which the challenge of the Reserve Corps is issued will probably take place immediately after the competitive shoot between the Naval Reserves and Light Infantry, May 20th, of this year.

The original team is composed of Col. C. H. White, captain of the team; Messrs. E. Payson Williard, N. E. Gillican, S. M. Boatwright, W. A. Willson, Jr., and J. R. Windley.

The Mayor's Court.

An affray between Essie Simmons and Mary Pope, colored, was investigated in Mayor Springer's court yesterday. The Simmons woman was let off with $5 and costs but Mary Pope, whose record is "all to the bad" was given 30 days in the work house in each of two cases for an affray and disorderly conduct. A white man named Gunn was up for being drunk and down which prompted disciples of Ezra Kendall to remark that Gunn was loaded. But the "Gunn" was not "discharged" and the only "report" in the papers is "five and costs."

The Morning Star.

WILLIAM H. BERNARD.

WILMINGTON, N. C.

Friday Morning, April 14.

THAT SOUTHBOUND MATTER.

Referring to the projected Southbound Railroad and the proposition to make Charleston its terminus, our esteemed contemporary the Charleston News and Courier, says:

"The esteemed Wilmington Star is disposed to deny the assertion which we recently made that Wilmington has declared war upon Charleston in the competition to obtain the new Winston and Southbound Railroad. It says: 'Wilmington is going down after that new railroad, but it don't want it to be considered a fight on our sister Carolina city,' and then it adds: 'Let's make it just a friendly rivalry.'

"This is written in reply to an editorial which we printed some days ago based upon a dispatch which we had received from Wilmington in which it was stated that 'Southport has joined hands with Wilmington and a vigorous fight will be made to wrest the Southbound Road from Charleston' We ventured to say at the time that we thought it would be much better were Wilmington and Charleston to join hands in an effort to promote the interests of the new railroad and leave rivalry as to the benefits to be obtained from it until a later date. This we still think should be the policy of the two ports. Each of them has much to gain, and by uniting their efforts they can be of better assistance to the promoters of the Winston undertaking than they could be were their energies wasted in efforts to cut each other's throats.

"The Star continues that it is sorry to alarm Charleston by informing her that Government engineers tell Wilmington that 'a depth of 40 feet can be secured on the Cape Fear bar when the demand arises for it, and that two or three miles inside the bar is the splendid harbor of Southport with water already ranging from 25 to 45 feet deep.'

"It is hard to understand how the Star could imagine that Charleston could be alarmed by such meager 'possible' natural advantages as these. The depth of water on Charleston's bar is no longer a matter of the future. It is not a theory, but a condition. The harbor which Charleston has surpasses in attractiveness every other harbor on the Atlantic sea coast. The City of Charleston is right by the side of its own harbor, and does not have to reach it by a tortuous journey down stream for we forget how many miles. If forced to do so it could very readily be made to appear that the railroad should seek for itself a terminus by the side of the ocean, and not stop at some interior river point.

"But, as we have said before, these are matters which it seems to us might all be left for future exploitation. The great point at issue just at the present time is the promotion of a great trunk line of railroads reaching from the South Atlantic seaboard directly into the coal fields of Tennessee, Virginia and West Virginia. The interests of this enterprise will not be furthered by factional differences between the cities and ports that are to become beneciaries of the devel. opments which will follow its construction. We have already taken occasion to hold out an olive branch to our friends in Wilmington, and we trust that they will yet see their way clear to accept it in the spirit in which it was offered. If, however, they insist upon competition rather than co-operation between themselves and us we have not the least doubt in the world of what the issue of the conflict will be."

The reason the Star wanted to make the rivalry for the Southbound a friendly one was because the editorial which first appeared in the News and Courier was in such a broad spirit and conciliatory tone. We presume that our contemporary got the idea that hostilities had broken out from the sledge-hammer way President J. Allen Taylor, of the Wilmington Chamber of Commerce, drove home his statement of the advantages of Southport for the Southbound's terminus and coaling station. He did draw a mighty nettling comparison between the capabilities of the ports of Charleston and Southport, but conditions and not theories bore him out in what he said.

We know that Charleston has a beautiful harbor, a large bay which opens grandly from the sea, but some one was saying the other day as how there is a sea swell up to the very wharves at Charleston while the harbor at Southport is land-locked, deep and capacious as well. The results obtained by the government engineers in deepening the navigable channel at Charleston convince us that there are possibilities for that port, but nevertheless the capabilities and possibilities of the Southport water terminal far exceed those of any port on the South Atlantic.

We are aware that the Charleston harbor is exceedingly attractive and that "the City of Charleston is right by the side of its own harbor, and does not have to reach it by a tortuous journey down stream for we forget how many miles. If forced to do so it could very readily be made to appear that the railroad should seek for itself a terminus by the side of the ocean, and not stop at some interior river point.

IS IT INHUMAN?

The Yaqui Indians are a bloodthirsty, treacherous lot of Indians who inhabit the State of Sonora in the northern part of Mexico. They murder and rob all the time and the Mexican government has to keep a standing army constantly on their trail. The government of the State of Sonora has issued orders for the separation from their mothers of all Yaqui children over two years of age and under eleven years. The women are to be deported with the men to the Isthmus of Tehuantepec and Yucatan but the children are to be kept at Sonora and be distributed among American families in various parts of the State. Catholic priests in Sonora are denouncing the move as inhuman and are calling upon Mexican parents to refuse to accept the Yaqui Indians as charges. Catholic papers are echoing the denunciation of the priests. The orders of the Sonora government were approved by the Mexican federal authorities before they were issued.

The measure is extreme but it may be the best thing the Mexican authorities can do for the little red devils. Still it looks inhuman.

TWINKLINGS.

—Mrs. Jenks—"You acted awfully silly when you proposed to me." Mr. Jenks—"Well, I was." — Cleveland Leader.

—"He is becoming quite a vegetarian. Some one said he was very fond of rye." "Yes. I've heard myself that he frequently feels his oats, too."—Indianapolis Star.

—Daughter (looking up from her novel)—"Papar, in time of trial, what do you suppose brings the most comfort to a man?" Papa—"An acquittal, I should think."—Tit-Bits.

—"I pity the poor sailor," said the sentimental boarder. "His is a dog's life." "Yes," rejoined the cheerful idiot, "he goes from one bark to another, as it were."—Chicago News.

—Teacher—Why did you do that? Tommy—O! jist fur fun. Teacher—But didn't you know it was against the rules? Tommy—Sure! Dat's where de fun come in.—Philadelphia Press.

—"If I don't succeed in learning to sing I shall go insane," exclaimed the girl with the split soprano. "Well, that would save the whole neighborhood from the same fate," muttered a next door acquaintance.—Cincinnati Commercial-Tribune.

—Manager—"You do not inject enough contempt, spite and venom into that word." Actress—"I can do no betters." Manager — "Nonesense. Speak it just as you say "plush" when you meet a rival in an imitation sealskin."—London Tit-Bits.

—The Young Man (with some embarrassment)—"There is one question you haven't asked me yet, Mr. Hurpop. You haven't wanted to know whether or not I think I can make a living for your daughter." The Old Man—"That isn't necessary, Henry. She'll see that you make the living, all right, if she's at all like her mother—and I think she is."—Chicago Tribune.

CURRENT COMMENT.

—Mississippi 3 1-2 per cent. bonds were sold last Winter at slightly less than par. They are now selling at a premium, even though Mr. Vardaman is still Governor, and they sold in Boston at that.—Birmingham Ledger.

—The reason given by the State Department of Agriculture for the selection of a test truck farm at Willard, instead of at Wilmington, is that the farm offered at the latter place "is too highly cultivated." We are not much of a farmer, but that sounds queer to us. Wonder how long it will be until the Willard farm is equally as highly cultivated as the Wilmington farm?—Charlotte Chronicle.

—The Salisbury Sun calls attention to the fact that the eastern towns seem to favor a dispensary while the western towns favor either the open saloon or absolute prohibition. How about Newbern, an eastern town which voted for prohibition; or Wilmington, another eastern town which turned down the dispensary? To our mind, it is all a matter of local sentiment, and local sentiment is formed in so many and so diverse ways that to trace it to its beginnings is next to impossible.—Greensboro Telegram.

—We note in the Macon Telegraph and other Georgia papers that fertilizer shipments to dealers have been much heavier this year than last. Our contemporaries naturally view the circumstance with some misgiving, notwithstanding the denial of the leaders of the movement that more fertilizers are being used for cotton than formerly. The government will make a report as to the acreage in June and then we will know beyond a doubt whether the cotton growers' association has accomplished its purpose. If it is shown that acreage has not been reduced, it will be proven that a working organization of farmers cannot be accomplished, for never has a greater effort been made nor has the need of one ever been greater. We are hopeful of a favorable report.—Columbia Record.

THE COTTON MARKET.

New York, April 13.—Cotton market quiet and irregular within a narrow range. The opening was steady at unchanged prices to a decline of 3@6 points in response to barely steady cables, continued large receipts and further reports of little or no reduction in acreage, chiefly in Texas. Some early wires from the South also reported that spot cotton was offering more freely with interior holders, showing a disposition to let go, and following on the active months under local pressure and a little selling by spot houses. On the decline there was a moderate demand from Wall Street and New Orleans, later supposed to be covering, and prices were rallied to about last night's final figures, when the market showed little change. The close was steady, unchanged to 3 points lower. Sales are estimated at 150,000 bales.

THEIR DAYS MAY BE PROLONGED

How the Evening of Life May Be Made Happier for All.

"If people only knew the good that Vinol does old people," said Mr. Robert R. Bellamy, our well known druggist, "columns of space in our newspapers would be devoted to the subject for the benefit of mankind in general. I can truly say that we have never sold anything in our store equal to Vinol as a strengthener and body-builder for old people.

"You see, with old age comes feebleness and loss of power, the organs act more slowly and less effectually than in youth, the appetite is poor, the digestion weak, and there is not that same renewal of body tissue.

"There is nothing more pitiful to me than to see old people tottering around. I know that Vinol cannot bring back lost years, but it will lengthen life and brighten the years that remain.

"We are hearing from all over the country remarkable results which prove my statement, and we have received letters from sons and daughters of old people telling how father or mother has been made well and happy by the vigor and strength which Vinol brings the old.

"It was only a few days ago a letter was brought to my attention from Mr. John G. Nichols, of Lawrence, Mass., in which he said that he was eighty-four years old, and he had not felt so well for fifteen years as he had since taking Vinol; it gave him a good appetite, and he feels strong and well, and is working every day from six o'clock in the morning until five o'clock at night."

"It is just this way," continued Mr. Bellamy, "Vinol invigorates the stomach first of all, creates an appetite and enables the stomach to separate from food the elements needed for rich, red blood, healthy body material and sound, steady nerves. In this natural manner it repairs worn tissues, checks the natural decline and replaces weakness and strength.

"For any one suffering from any weakened, run-down condition Vinol will do the same; and it is because we know so well what Vinol will do that we guarantee its action, and we will gladly refund the money paid for it to any one ho is not satisfied. I wish every old person in this vicinity would just try Vinol on our guarantee. If it does not satisfy then it will not cost them a cent.—Robert R. Bellamy.

—Winston Southern Tobacco Journal: Quite a stir has been occasioned in the trade circles by the appearance of a new paper cigarette, ten for 5 cents, manufactured by the Ware-Kramer Tobacco Company, Wilson, N. C. This concern have just started to do business, and have placed their product in all the stands of the city.

Last Hope Vanished.

When leading physicians said that W. M. Smithart, of Perkin, Ia., had incurable consumption, his last hope vanished; but Dr. King's New Discovery for Consumption, Coughs and Colds, kept him out of his grave. He says: "This great specific completely cured me, and saved my life. Since then, I have used it for over 10 years, and consider it a marvelous throat and lung cure." Strictly scientific cure for Coughs, Sore Throats or Colds; sure preventive of Pneumonia. Guaranteed, 50c. and $1.00 bottles at R. R. BELLAMY'S drug store. Trial bottle free.

SPIRITS TURPENTINE.

—The Holiness or Santificationists have so grown in numbers in Greensboro, that they have bought a lot and will build a church.

—Wilson Times, April 12th: Mr. R. E. Copeland, of Spring Hope, who is in the city to-day, says the sale of fertilizers is so great at his point that the Coast Line was compelled to run an extra train of 25 cars to bring it. The farmers, said he, maintain there will be a reduction in the cotton acreage, but the sale of fertilizers by his firm is larger than ever before.

—The following from the Army and Navy Register will interest many of the North Carolina friends of Lieutenant Cotton, son of Mr. R. R. Cotton, of Pitt county: "Lieutenant Lyman A. Cotton U. S. Navy, has recently been assigned to the new cruiser Pennsylvania. Lieutenant Cotton has been one of the instructors at the U. S. Naval Academy, Annapolis, Md., for the last two years, and his many friends there regret to see him leave."

—The Jeb Stuart Chapter, United Daughters of the Confederacy, of Fayetteville, of which Mrs. Hunter G. Smith is president, will contribute $100 to the Bethel monument; and, on the invitation of the Virginia Bethel Association, have appointed Maj. E. J. Hale and Miss Fannie Kyle to represent the chapter at the unveiling of the monument at Bethel, on the 10th of June. The chapter has also purchased a plot on the battlefield, where Wyatt fell, which will be appropriately dedicated and marked.

—A dispatch from Washington, N. C., on Wednesday says: Mr. E. B. Oliver, of this place, has just received a letter from Mr. R. H. Vestal, one of his traveling salesmen, who states that while driving in the country east of Bath, on last Saturday afternoon, he was overtaken by two men on wheels, who held him up and robbed him of all the money about his person. As Mr. Vestal was a stranger in community and had nothing with which to protect himself the robbers made good their escape and there is not the least clue to their identity. Mr. Oliver offers a reward of $50 for the apprehension of the robbers.

—A man who gives his name as John Smith, suspected of being one of three burglars who rifled the safe of the Heath Spring Banking Company at Heath Springs, S. C., also the McAden Mills at McAdensville, was caught in Charlotte Wednesday by three members of the Charlotte police force. Word was sent from Lilesville, the point where the other two men were captured that the third one of the party was coming this way. As Smith alighted from the train an officer grabbed him and hustled him to the police station. The man is non-communicative and declines to give any information as to who he is or as to where he came from.

—Raleigh News and Observer, April 13: Supposed to be rich in a find of gold on his land, Charles J. Alston, who has a wide acquaintance in North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Tennessee, Ohio, Indiana, West Virginia and Virginia, as a commercial tourist who travels for a large manufacturer of Westfield, Mass., is now interested in gold bearing lands, and has recently found a fine lot of gold nuggets, of which he is having a lot of jewelry made, these being cuff botton, stick pins, shirt buttons, hat pins, rings, etc. Mr. Alston's land lies near where the counties of Warren, Franklin, Halifax and Nash corner, and is surrounded by gold bearing lands now being worked for gold. Mr. Alston thinks of placing a lot in the State Museum on exhibit to show that North Carolina lands contain.

—Charlotte Observer: Gentlemen whose businesses are to crack safes and sell gold-bricks will learn, in the course of time, that North Carolina is a good State to fight shy of. About two years ago a party of cracksmen came to grief in Anson county, and now another party, obviously of the same profession, has met the same fate in the same county. One escaped one is dead, and two are in durance vile. Some four years ago, at Greensboro, a North Carolinian delivered to the officers of the law a company of artists which was engaged in the business of vending gold bricks, and the penitentiary opened its doors with joy and gladness to receive them. The aggregation just captured in Anson is no doubt the same that has been doing business so successfully in North Carolina for a couple or more of years. It has been a long run, but leaden-footed justice has at last over-taken it.

—Raleigh News and Observer: Every day there appear at the Mayor's office a large number of men, occasionally a woman, both negroes and whites, asking if there are warrants out for them on the charge of vagrancy. The aggressive policy of the Mayor in dealing with these parasites on society, and the examples he has made, are having a wholesome effect upon the habitual idlers and gamblers of the city. The police are making reports daily on a long list of loafers, and unless they immediately secure empolyment, they will be arrested, and if convicted, sentenced to the city farm for thirty days. There have been issued about fifty vagrancy warrants, and of this number there have been several convictions, but it is not uncommon that when the person learns that a warrant is out for him, he shakes the dust of Raleigh from his boots, and is seen no more in this city.

—Rev. P. R. Law in Lumberton Robersonian: It appears that Judge Neal has been doing things that are quite unusual if not new. He has called down a lawyer who was characterizing witnesses as cattle whose good standing has not been attacked in court. This was well done. No doubt it was a case of unintentional traduction by the lawyer. It is not easy to see how a lawyer could deliberately use such language. Yet it should not have been allowed. It is not possible for such things to be said of men, especially if they are left unchallenged without really besmirching their hitherto untarnished names. Then we see that the Judge has ordered the Sheriff to leave out the fellows who loaf about the court room in order to get on a jury and to select others outside who attest their worth as good citizens by being industriously engaged in their honorable avocations.

A FRIEND'S ADVICE.

Will Often Help You Greatly. Read What a Wilmington Citizen Says.

You may hesitate to listen to the advice of strangers, but the testimony of friends or residents of Wilmington is worth your most careful attention. It is an easy matter to investigate such proof as this. The evidence must be conclusive. Read the following:

P. C. Le Moyne, contractor, of 223 North Seventh street, says: "I did not known that the trouble with my back was caused by my kidneys not acting properly, although I noticed the secretions from those organs were dark and very irregular, sometimes free and at other times scanty. I saw Doan's Kidney Pills advertised and went to Bellamy's drug store and got a box. I was surprised at the result, for I have not had backache since I used them. I also got a box of Doan's Ointment. I have had itching hemorrhoids or piles for years, and tried everything I knew of without benefit. Doan's Ointment gave me instant relief. I heard about Doan's Kidney Pills in England some years ago, and until now I was under the impression that they were made only in England. In addition to my backache being cured the kidney secretions have all cleared up and become normal since using the Pills."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no stubstitute.

WARM WIRELETS.

Joseph Jefferson, the famous actor, is ill at his home in Miami, Fla., and physicians have been summoned from St. Augustine to attend him.

The trial of Judge James Hargis, charged with the murder of James Cockrill in Jackson, Ky., two years ago, was resumed at Lexington, Ky., yesterday after an adjournment since Tuesday, in order to summon a special venire of 500 jurors.

Governor Robert M. LaFollette yesterday signed the anti-cigarette bill passed by the Wisconsin Legislature. The manufacture or cigarettes or cigarette tobacco or paper or the giving away of cigarette papers. The bill goes into effect on July 1st.
giving away of cigarette papers. The bills goes into effect on July 1st.

At Washington yesterday a petition was filed with the Interstate Commerce Commission by the railroad commission of Kentucky, against the Illinois Central Railroad Company and the Nashville, Chattanooga and St. Louis Railway Company, alleging a discrimination of freight rates on grain from certain points in Kentucky to Atlanta.

A baseball league comprising teams from Salisbury, Charlotte and Greensboro, N. C., and Danville, Va., was organized at Greensboro last night. Places for Durham and Winston are left open. Practice work will begin April 20th and the first game is scheduled for May 4th at Danville and Charlotte.

At Montreal, yesterday the closing argument for the prosecution in the Gaynor-Greene case took place. After Mr. MacMaster had finished, Mr. G. D. Stewart, of Quebec, also spoke on behalf of the United States. Judge LaFountaine took the case for deliberation and it will probably not come up again for two weeks when he will announce whether there is sufficient evidence to make out a prima facie case and put the prisoners on trial for extradition.

The Philadelphia tug Peerless went into Norfolk yesterday and reported having struck a torpedo mine in Hampton Roads without damage to the boat. Investigation developed the fact that the government is now engaged in the secret laying of mines in Hampton Roads preparatory to the coming army and navy manoeuvres in June. It is stated by officials at Washington that the torpedoes are "dummies" and are being put down for practice purposes during the coming joint manoeuvres.

Judge Advocate General Davis, of the Army, has received at Washington the record of the court martial proceedings in the case of Captain G. W. Kirkman, of the Twenty-fifth Infantry, stationed at Fort Niobrarra, Neb. That officer was charged with conduct unbecoming an officer and a gentleman, growing out of a series of alleged scandalous actions. It is charged that he compromised the wife of a brother officer and as a result the woman committed suicide. Captain Kirkman was found guilty and sentenced to be dismissed.

FEES OF $100,000 ALLOWED.

Receiver of United State Shipbuilding Company Gets Big Haul.

By Wire to The Morning Star.

Newark, N. J., April 13.—Fees amounting to $55,000 for selling the property of the United States Shipbuilding Company and of $50,000 for counsel fees were allowed to James Smith, Jr., and received of that company, by Judge Lanning in the United State Circuit Court to-day. These allowances do not include the fee as receiver. Counsel for the Mercantile Trust Company filed an order asking for a deficiency judgment of $13,793,663 and for the New York Trunst Company a similar judgment for $3,629,001 representing the difference between the amounts realized from the sale of the property and the judgments to which the court decreed the companies were entitled. Receiver Smith was directed to distribute about $940,000 of the company's cash still in his possession.

WILMINGTON REAL ESTATE.

Values Make Remarkably Fine Showing For This City.

An enthusiastic and progressive citizen met a Star representative recently and the first thing he did was to ask the following question: "But hasn't old Wilmington got a hump on her?" Without hesitation the Star man replied: "She certainly has." Then the conversation drifted into real estate. The progressive citizen said he bought a lot, 37 by 150 feet, near the corner of Market and Ninth streets, two years ago for which he paid $1,050. "Now," he exultingly exclaimed, "I can get $2,250 for it." The Star man then remarked that he had been talking with a gentleman who is probably better posted in all matters pertaining to real estate than any one in Wilmington. This gentleman said there had been an average increase in the value of real estate here of more than one hundred per cent. in the past three years, and he proved it, too.

The sale of the property, 22x100 feet, on Front street, noted in the Star of last Sunday, shows how steadily Wilmington is forging to the front. That property sold for $11,000, or $500 per front foot. In this connection the Star wishes to emphasize a suggestion it recently made in regard to the building of the class of dwellings now so much in demand. Houses that may be rented for $12.50 to $25.00 per month are those that are most eagerly sought, and that yield the largest net income to the owner.

Why do not some of our people of large capital enter this fruitful field? It is known of all men that real estate offers the safest investment on earth. It cannot run away and is in every essential far superior to stocks and bonds. Of course, we refer now to improved real estate in Wilmington, a city whose progress is so marked that even the dead men who so long thought it a dead town have been brought to life and are now in the procession of enthusiastic and public spirited men whose slogan is "Forty-five thousand population for Wilmington in 1910."

Men of capital, invest your money in real estate. Build houses for those who are already here and can find no suitable homes. Build houses for those who are coming here by thousands in the next few years. The investment will be a profitable one. Pay your taxes and insure your buildings against fire loss and you are absolutely safe. And after paying all expenses you will net at least seven per cent. on the investment.

RUSSIAN FLEET READY TO FIGHT

Rojestvensky Boldly Sailing in Course to Meet Japanese War Ships.

HE IS ANXIOUS FOR BATTLE

Russian Squadron Consists of Forty-Two Ships—Vladivostok is Being Strengthened for a Siege—Japanese Spy Shot.

By Cable to The Morning Star.

St. Petersburg, April 13.—The news of the northward movement of Admiral Rojestvensky's squadron and his evident intention to accept battle whenever Admiral Togo chooses to offer it, has for the present stilled all activities in the direc tion of peace and the foreign dispatches relating to the voyage of the squadron are followed with the most intense interest.

The admiralty volunteers no information regarding Rojestvensky's plan whether his immediate destination is or is not Cape Padaran (on the East coast of Cochin, China), but in naval circles the impression prevails that the squadron will continue northward to the straits of Formosa, where if Admiral Togo does not elect to give battle or is defeated, Admiral Rojestvensky may seize a temporary base in Japan territory and if it is considered advisable, he could there await the arrival of Admiral Nebogatoff's division. Other naval men think Valdivostok is the only base the Russian admiral has in view.

Considerable irritation is manifested in naval circles at the activity of British ships n Chinese waters which are reported to be steaming from Hong Kong to Singapore, and their action is attributed to a desire to keep in touch with the Russian squadron and report its movements to the world at large, and to Great Britain's ally in particular, as happened in the case of the British armored cruiser Suttlej, which arrived at Singapore, Straits Settlements, yesterday and reported having passed the Russian second Pacific squadron at daylight, April 11th, steaming north.

Russians Have 42 Ships.

Singapore, April 13.—The Russian fleet was in latitude 8 degrees north, longitude 108 degrees, 55 minutes east at noon, April 11th. The peninsular and oriental steamer Nubia, which has arrived here, reports having passed no less than forty-two vessels there. They were steering north-northeast at a speed of eight or ten knots. The position of the fleet was then about 300 miles northeastward of the Natuna islands (which lie between the Malay Peninsula and the West Coast of Borneo), and more than 200 miles southeast of Cape Jaques. This course indicates that the fleet was not going to Saigon, France, Cochin-China.

Rojestvensky Wants to Fight.

London, April 13.—British naval men comment on the lack of secrecy regarding Admiral Rojestvensky's movement since his arrival in Far Eastern waters. The fact that he is keeping to the main trade route although knowing his squadron would constantly be sighted, and reported by passing vessels they consider clearly shows that the Russian admiral is keenly anxious to meet Admiral Togo and fight it out to a finish.

Chicago, April 13.—A Chicago Daily News special from Saigon, Indo-China, says: "Rojestvensky's hospital ship arrived here last night to take on board provisions, coal and medicines. It will leave to-morrow at midday to rejoin the main squadron."

Strengthening Vladivostok.

Tokio, April 13.—It is reported here that the Russians are continually reinforcing the garrison at Valdivostok, and that the work of strengthening the fortress is progressing constantly. It is said that the plans of the Russians contemplate a garrison numbering batteries, redoubhts, barriers and pits are in course of construction and enormous stores of ammunition are being accummulated. The Russians, it is said, hope to so equip the fortress that it will be capable of withstanding a siege.

Russians on the Agressive.

St. Petersburg, April 13.—A dispatch from Gunshu Pass dated yesterday says the Russian advance detachment on the Mandarin road pushed forward April 11th, and bombarded Manchasay at mid-day. The Japanese infantry and cavalry hurriedly vacated the place, leaving their dinner, maps, etc.

Japanese Officer Shot.

Gunshu Pass, April 13.—Lieutenant Kobiasini, of the Twenty-Third Japanese dragoons, who was captured disguised as a Chinaman, and who confessed he was a spy, and was tried by court martial, was shot to-day. The Russian outposts have been moved southward and are now half way between Shuamnyaotszi and Santoupu. General Linevitch is very active, riding daily around the Russian position and inspecting the troops.

The Raleigh On the Watch.

Washington, April 13.—The Navy Department was advised of the departure to-day of the cruiser Raleigh from Lebanon on the north coast of British Borneo, where she was dispatched by Rear Admiral Train to observe the movements of the hostile fleets, for Cuyo, in the Philippines, a point about 400 or 500 miles to the northeast, between Palawan and Panay islands. It is indicated that the Raleigh's commander obtained information as to which he believed to be the contemplated course of the opposing war vessels, and has shaped his course accordingly. It is about a two days sail to Cuyo.

OUTRAGE BY KOREAN REBBELS.

Kentuckian Physician Missionary Has Skull Fractured.

By Wire to The Morning Star.

Versailles, Ky., April 13.—Dr. Wiley H. Forsythe, formerly of Vercailles, who is in Korea as a medical missionary, was recently attacked by a band of Korean rebels, according to advices received here, and horribly wounded. Dr. Forsythe was called into the interior to attend a Korean gentleman, who has been shot by robbers. He stopped for the night at the village of Mankao. During the night the house was broken into by the rebels and Forsythe, being unarmed, was at their mercy. His Skull was fractured, one of his ears severed and he received other dangerous wounds. Dr. Forsythe went to Korea last year.

SOUTHERN TRUCK ENDANGERED.

Serious Consequence of Strike Among Philadelphia Teamsters.

By Wire to The Morning Star.

Philadelphia, April 13.—More than 200 teamsters who are employed to haul produce from the West Philadelphia freight yards to the Delaware river front went to a strike to-day. The drivers demand $16 a week. They are now paid $13 weekly in summer and $15 in winter. It is understood the employes have offered to compromise at $14 a week, summer and winter. Cars loaded with fruit and vegetables from the South are standing in the yards and are likely to spoil if the strike continues.

NAN PATTERSON IN COURT TO PLEA TO CONSPIRACY

Her Counsel Insisted Upon Her Entering Plea, But District Attorney Rand Objected, and Got Continuance.

By Wire to The Morning Star.

New York, April 13.—Nan Patterson was brought into the Court of General Sessions to-day by her own counsel to plead to a charge of conspiracy to get money from Caesar Young, a book-maker. She is accused of having conspired with J. Morgan Smith and his wife, Miss Patterson's sister, to extort money from the dead book-maker.

She was not allowed to plead to the charge, however, as Assistant District Attorney Rand asked Judge Foster that she be not arraigned, holding that it was unnecessary. Miss Patterson's counsel requested permission examine the minutes of the grand jury which indicted her. This was opposed by Mr. Rand, who asked for a delay of one day in order that Miss Patterson might be arraigned in company with J. Morgan Smith and Mrs. Smith to-morrow. Although Miss Patterson's counsel vigorously objected to the delay the court ordered that her plea to the charge be put over until Friday. She will be placed on trial again next Monday on the charge of having murdered Young.

Counsel for J. Morgan Smith and his wife asked the court to order the District Attorney to return the letters confiscated from the Smiths in Cincinnati. The lawyer declared that Mr. Rand had no right to them. Before deciding the question the court decided that formal notice be given to the District Attorney. After the court proceedings Mr. Rand asked the Smith's counsel to allow them to come to the District Attorneys office and be question which was refused. It is said, Mr. Rand is endeavoring to learn who, if any one, assisted the Smiths in their night from New York after the death of "Caesar" Young last June, and was desirous of discussing this phase of the case with the Smiths.

DR. E. A. ALDERMAN IS INAUGURATED.

Eminent Wilmingtonian Formally Installed President of University of Virginia—Inspiring Speech.

By Wire to The Morning Star.

Charlottesville, Va., April 13.—In the eightieth year of its career and on the anniversary of the birth of Thomas Jefferson, its illutsrous founder, the University of Virginia to-day inaugurated its first President Dr. Edwin Anderson Alderman. The simple ceremony was impressive. It combined the University spirit in the enthusiasm of a student body of seven hundred and an alumni a thousand strong, with the dignity capped, gowned and hooded men, the educational leaders of the South, North, East and West. Officials of the nation and State, and distinguished citizens from many sections added to the presence. The inaugural procession through the center of the lawn from the rotunda to the hall, in the balmy air and bright sun of the Spring afternoon; a prayer, the oath of office, a brief acceptance of the trust and a number of speeches which filled three hours of enthusiastic interest, climaxed by an inspiring inaugeral address by President Alderman, and the installation was accomplished. Not an opportunity was lost to applaud Dr. Alderman's great inaugural address and when he concluded his words of acceptance, cheer upon cheer rang out from the students in the galleries while those in the pit of the large hall applauded long.

Governor Montague followed and spoke for the State and her institutions, and other distinguished men made speeches.

President Alderman is a native of Wilmington, N. C. He is in the prime of life and left the presidency of his State to head the Tulane, Louisiana University, from which he resigned to accept his new post.

The alumni and students took entire charge of matters at the conclusion of the installation exercises. All day preparations for the banquet had been going forward in the rotunda. A round center table seated the guests of honor and Toastmaster James' P. Harrison, of Danville, officiated in the absence of Thomas Nelson Page, president of the alumni.

Among the speakers at the banquet were Senator Daniel, Dr. Alderman, Chas A. Smith, Ph. D., of the University of N. C., and others.

Announcement was made at the banquet that John D. Rockefeller had given $100,000 to the University "to found a school of education to be called the Curry Memorial School of Education of the University of Virginia, in commemoration of the great and disinterested services of Dr. Curry in behalf of popular education in the South."

—In Elizabeth City on Tuesday, the proposed issued of $100,000 for municipal improvements was defeated by a majority in nearly every ward.

—Raleigh Post: Senator Lee S. Overman, of Salisbury, left for home yesterday after attending the Supreme Court. He will go to the exposition at Portland, Oregon, May 20th as one of the six members of a special Senate Committee appointed to visit the exposition——While attending the unveiling ceremonies at the Appomattox battleground Capt. Walter L. Green, of the State Agricultural Department met up with W. R. Abbitt, of Lynchburg, who is anxious to find the owner of a gun he picked up on the battlefield at Appomattox soon after the battle. Or at least to find some of the owner's people if he is not still living. The gun has the enitials "J. L. A., Co. A Fourth N. C. Regiment," cut on the stock.

The Pender Chronicle.

The Pender Chronicle, published at Burgaw, comes to the Star this week enlarged and much improved. It now contains eight pages and is filled with readable matter. Since the first of November the Chronicle has been under the management of Editor C. E. McCullen and Business Manager A. B. Croom, Jr., who are making a success of their journalistic venture. The paper is on a sound financial basis and is what Pender has long been in need of —a first class county paper.

SOCIALIST TALK ON JEFFERSON DAY

Great Speakers and Notable Speeches at Chicago Banquet Last Night.

SUBJECTS OF SIGNIFICANCE

Municipal and Government Ownership Were the Burden of the Speeches.—Speakers Were Bryan, Mayor Dunne and Others.

By Wire to The Morning Star.

Chicago, April 13.—Subjects of National significance to the Democratic party were discussed by several leading orators of the party at a Jefferson Club banquet held at the Sherman House to-night in commemoration of the birthday of Thomas Jefferson. The dinner in a measure resolved itself into a jollification over the recent election of Mayor Edward F. Dunne, who is a director of the club. The Mayor was among the speakers who responded to toasts. All the speakers referred to municipal ownership, and to Mayor Dunne's election on a municipal ownership platform.

William Jennings Bryan and George Fred Williams were the principal speakers from out of town. Mr. Bryan spoke on "Thomas Jefferson," and his remarks were greeted with unstinted applause.

Mr. Williams took for his theme, "Equal rights to all and special privileges to none." The speaker was warmly welcomed by the banqueters. He said in part:

"I am here to-night with faith not shaken in the fundamental principle of Democracy that there shall be "Equal right to all and Special Privileges to None." Were it merely to relieve those who suffer to-day, I plead for the enforcement of this doctrine. Laws amreaebdyR-mU3cwffwfe trine. Laws are made by man and can be unmade by man, and the men who have made bad laws are bound to unmake them. These men are you and I. The laws are our guilt, and all the suffering cry out to us who have offended. For myself, I cannot wait for revolution. I am already too old. I am eager to join in the kind of Democracy which Judge Dunne leads in Chicago, and which he will not fail to lead wherever the Democracy may call him.

"Out of the enthusiasm and earnestness which you (Judge Dunne) have displayed in your canvass we may look for a national uprising necessitated by the same abuses and inspired by the same principles. Nor am I satisfied to go forward upon a basis of settlement. I want a platform and as soon as may be a candiate. 'Public ownership and direct legislation,' are words enough for the banner which we shall carry hereafter.

Mayor Dunne spoke to the toast, "The elections and their lesson." He said in part:

"The Democratic party won in the spring election because its platform plainly, clearly, and truthfully declared for principles which were for the best interest of the people. It lost last fall because its platform was a compromise and because the people believed that it delt in platitudes rather than principles. The results of these elections should teach the lesson of the men who stand high in the councils of Democracy that evasion, insincerity, and retrogression should have no place in the platforms of the Democratic party. The party must take and hold to advanced positions. It must keep pace with the march of events. It must declare against monopoly in any and all forms; against special privilege in every guise. Jefferson, in his lifetime, stood for equal right to all and special privilege to none, and if Jefferson were in the flesh to-day he would be standing against the special privileges given to the great corporations. The blow struck in Chicago probably will be followed by blows of like character throughout the United States. It will also be followed, in my humble judgement, if the Democratic party is wise and prudent and incorporates in its next platform a ringing declaration in favor of Government ownership of interstate railroads, telegraph, and express transportation, by a decisive victory in favor of the common people of this country. Aggressive Democracy is in the saddle and if it remains aggressive, it will carry the country."

Mayor Tom Johnson, of Cleveland, was the next speaker. Mr. Johnson also spoke on municipal ownership. He discussed the possibilities of municipal ownership from a traction expert's view.

Among others who spoke during the evening were J. Hamilton Lewis and Clarence S. Darrow.

—At Spencer Tuesday night Officer D. W. Davis, a night watchman for the Southern railway at that place, was held up and robbed by three tramps, who secured $27 in money and the pistol with which he was armed. The tramps were on top of an outgoing freight when discovered by the officer, who ordered them down, at the same time mounting the car himself to put them off. Instead of leaving the train the tramps threw Mr. Davis on top of the car robbed him, and under cover of his own pistol, wrenched from his hands, carried the officer to Lexington, eighteen miles distant, where the highwaymen escaped.

A Million or More of Deaf Mutes.

Recent estimation places the number of deaf mutes in the world at more than 1,000,000. This great number of human beings, living a life which a normal person cannot conceive, is destined to increase because of the tendency of these people to marry persons laboring under the same disability.

Examination of the records of 4,500 marriages of deaf persons shows 9 per cent of the children to be deaf, while only one-tenth of 1 per cent of the offspring of an equal number of marriages of normal persons are likely to be afflicted with deafness. Deaf parents whose relatives are not deaf run no greater chances of having deaf children than persons who can hear, but in the case of normal persons in whose families there are members who are deaf the danger of deaf children is, according to Professor E. A. Fay, who has studied the question, just as great as among deaf people.—New York Press.

Minutiae In Detective Work

[Original.]

The most important case, at least the most important to me, I have had since I entered the detective business was the Hinton case. Besides, it is the best illustration that has ever passed under my notice of the fact that attention to minutiae is the main feature in detective work.

One day I received a call from a young lady, who told me that she was interested in running down a gang of counterfeiters. She had rented a house next door to where she suspected they were at work, and that was as far as she could go. She could not shadow the occupants, for women can't go where men can go without attracting attention. Therefore she must have the services of a detective. Her interest in bringing the people she suspected to justice was this: Her brother had been made the dupe of counterfeiters and had been arrested while passing their spurious money. He was lying in jail waiting his trial. Her object was to fix the responsibility on the proper person.

Miss Henrietta Stowell interested me at once. How she had worked up the case thus far is too long a story to be given here, but that this young girl unaided had succeeded in locating the gang filled me with astonishment and admiration. I say "located the gang" because there was every reason to believe that they were the persons who had used her brother for a catspaw. But she had been unable to secure one item of proof, and that was what I was expected to do.

I began to watch the suspected house and soon noticed that it was occupied by an eminently respectable looking man and an old woman, who acted as housekeeper. There were no visitors, the housekeeper never went out, and the respectable looking man went out very seldom. I learned that the name by which he was known was Cochrane.

I divided the twenty-four hours of the day into three watches, taking one watch myself and leaving the other two to assistants. My experience tells me that the finest crooked work is done in broad daylight. Therefore I took the watch from 9 in the morning to 5 in the afternoon. Mr. Cochrane's tours from the house were to a news stand a few blocks away, where he went twice a day to buy a morning and an evening paper. Besides this he went marketing every day and carried everything home himself. A few days' watching showed plainly that he and his housekeeper were either enormous eaters or he was marketing for others.

However, after watching the house for a fortnight I was no nearer bagging the game than when I commenced. Counterfeiters are the slipperiest kind of lawbreakers, being always prepared for a raid. Besides, in this case there was no certainty that there was anything wrong with Mr. Cochrane.

On the fifteenth day of my watch Mr. Cochrane, at 10 o'clock in the morning, came out of his front door, stood idly swinging a cane, gaped, then, slowly descending the steps, seemed uncertain for a moment which way he would go. At last he strolled down the street aimlessly. I, disguised as a workingman, followed him to a building used for stores below and rooms above. I waited for him to come out, but waited a long time in vain. About half an hour after he entered a man about his build, but much older—he wore a white beard—came out, but it did not occur to me that he could be Cochrane. I clung to my post till noon, when the old man returned, and as he passed very near me I noticed that his white linen cuff had been bespattered with mud, doubtless by a passing vehicle.

In twenty minutes more I was rewarded by a sight of Mr. Cochrane stepping unconcernedly from the building, and as he passed me I noticed some yellow marks on his cuff. In a twinkling I put two and two together and had a definite result. Cochrane and the old man were one and the same person. He had gone to a room he doubtless rented in the building, disguised himself, gone out and returned. He had undoubtedly noticed the dirt on his cuff and brushed it off, leaving the stain.

But what had he done all this for? He had likely visited some person or persons to whom he had turned over the "queer" to be placed in circulation. At least that was my inference. I was tempted to proceed at once against him, but prudence bade me wait. I had no evidence, and I was in a fair way to get the best of evidence. What troubled me was that I must wait for another one of Cochrane's exits in disguise, and in the meantime the gang might change their quarters.

It was ten days before I was again rewarded by seeing Mr. Cochrane go to his rented room, disguise himself and go out. This time I followed him. His object was to get rid of counterfeit money, but in a way that surprised me. He visited a number of places, in each of which he bought some trifling article, for which he paid with a ten dollar bill, receiving a large proportion of change. I telephoned to police headquarters, and he was arrested, a descent being made on his house at the same time. Nothing was found there, and I inferred that the gang had arranged to escape to the roof and down through another building. However, Cochrane, alias Hinton, was convicted, and in his trial it came out how he had used Miss Stowell's brother, the boy being innocent of wrong.

Yes, in our business the minutiae count. Though we had the counterfeiter located, we would have lost the game had I not noticed the dirt on Hinton's cuff.

Why was the case important to me? I married Henrietta Stowell.

He Didn't Get the Tart.

A well known novelist tells an amusing story of his father, an English rector, and Sir Henry Thompson, the surgeon and authority on food. Sir Henry was called in and prescribed a certain diet, particularly warning the patient against apple tart, for which the reverend gentleman had a great partiality. "Oh, but, Sir Henry," pleaded the patient, "mayn't I have a little—just on Sunday? We always have it for dinner then." "Sir," replied Sir Henry in severe tones, "do you imagine that your stomach is any different on Sunday from what it is on other days? Good morning."—London Outlook.

It Was Ready In Time.

A farmer in Illinois planned a coffin for himself thirty-five years ago and since that time spent many hours in trying to get a lazy carpenter to make it for him. The farmer cut the necessary lumber on his farm, hauled it to the carpenter shop, and there it stayed. Two years ago he insisted that the carpenter finish the work, and he took it up, working a little at a time, and only recently completed the job. The farmer died the week after his coffin was finished.
